#### **Musical-literary evening**

#### **Launching of Facsimile of Claude-Oronce Finé's *Giuoco d'Arme dei Sovrani e degli Stati d'Europa***

To mark the occasion of Malta's entry into the European Union on 1<sup>st</sup> May, the National Library organized a musical-literary evening on 20<sup>th</sup> April in the Reading Room of the Library. This was the first time that such an activity was held on the premises. The programme, consisted of a choir recital by the *Collegium Musicum* interspersed with the reading of poems. The occasion also saw the launch of the facsimile of Bernardo Giustiniani's translation of Claude-Oronce Finé's *Giuoco d'Arme dei Sovrani e degli Stati d'Europa*. This edition was printed in Naples in 1725. Apart from its rarity the book is very special because it is dedicated to Fra' Antonio Manoel de Vilhena, Grand Master of the Order of St. John which ruled Malta at the time. *Giuoco d'Arme* consists of a 52-card game involving the various European states, among them Malta, existent in the 17<sup>th</sup>-18<sup>th</sup> centuries. For this reason we felt it was appropriate to publish the facsimile of this rare work to coincide with Malta's entry into the European Union. The production of the facsimile copies was the result of a combination of ideas of talented enthusiasts. Dr Philippe Palasi, an authority on heraldry, kindly wrote an introduction to the work. Above all the staff at the National Library carried out all the work, beginning from the planning of the project to the physical tasks involving rounding, headband and case-making and gilding of the book as well as slipcase-making. Only the printing was done at an outside source.

### **Participation in Conferences abroad**

**Workshop organized by Puglia (Italy) Regional Council** – In June 2004 the Director was invited to participate in the 7<sup>th</sup> annual Workshop which was held by the Biblioteca Multimediale del Consiglia Regionale della Puglia.

The Workshop – “*Teca del Mediterraneo*” was conducted by Dott Waldemaro Morgese, direttore Biblioteca Multimediale Consiglio Regionale della Puglia. The Director was appointed to chair one of the workshops – “Perché le Biblioteche nel XXI° secolo”. As a result of this Workshop a Network International of Libraries was set up. Malta has welcomed the invitation to be a participant in the project and we will be doing our utmost to contribute for the good results. A plan was devised for the Network International of Libraries between Alessandria d’Egitto (Egitto), Bari (Italia), Malta, Tirana (Albania) and Tunisi (Tunisia). This co-operation agreement is surely in the right direction and will be promoting the diffusion of the culture and the studies on the quality of life in the different cities.

**International Federation of Libraries Association (IFLA) General Conference and Council – Buenos-Aires (Argentina) 22-27 August 2004** – The 70<sup>th</sup> IFLA General Conference and Council was held in Buenos – Aires, Argentina. This year’s Conference centered on “Libraries: Tools for Education and Development”. The subject chosen is most relevant as libraries are no longer on the fringes of education and development but at the heart of the process. Like schools, libraries have become core infrastructure for national development.

Information and knowledge are fundamental for Education and Development as well as essential requirements to improve the quality of life for people living in regions where the population has not reached a high level of economic and social development.

In connection with the World Library and Information Congress 2004, an international trade exhibition has been arranged at the Hilton Conference Centre. More than 150 exhibitors presented their products and services.

**Foundation Conference of European National Libraries (CENL) 22 – 24 September 2004, Rome** - The 18<sup>th</sup> annual meeting of the Foundation Conference of European National Libraries (CENL) was held in the Biblioteca Nazionale in Rome (22-23 September) and in the Biblioteca Apostolica Vaticana in the Vatican City (24 September).

Besides the annual Conference, special attention was made to two visits paid to the Central Library of Rome and to the public library in the Vatican. These visits are regarded of utmost importance because many regulations found in these libraries are adopted in our National Library.

#### **The European Library: Modular Extensions for Mediating Online Resources - TEL-ME-MOR**

Through the Director's participation in the Conference for European National Librarians (CENL) we prepared a report on the needs of the National Library and we were accepted as a participant in the TEL-ME-MOR project.
