

## CENL Annual General Meeting 2023

### Call for Proposals

Bibliothèque Nationale de France, Paris 18. – 20. June 2023

DEADLINE: 1. March 2023

The 37<sup>th</sup> CENL Annual General Meeting (AGM) in Paris (France) will focus on

### SUSTAINABILITY

The Executive Committee agreed on sustainability as the overarching theme due to the fact that this subject is of great importance for all of us. And it is focused and at the same time broad enough to cover different aspects including digital issues.

Libraries are institutions making information and knowledge available to all, and contributing to sustainability on a large scale. As cultural heritage institutions national libraries preserve their assets to keep them available for the future.

But this is only one of the many facets of sustainability in libraries. User services might be sustainable, library buildings may be built that way and with a low carbon footprint, or you may contribute otherwise to UNESCO's Sustainable Development Goals (SDGs). Maybe sustainability is even part of your national library's strategy?

The CENL Secretariat invites you to actively contribute to the AGM 2023 by presenting any aspects of sustainability with regards to your national library. We are curious about your activities and experiences, and we want to learn from each other. Whatever it may be, we look forward to your story.

Please send your proposal with a short abstract (maximum one page) to the CENL secretariat at [cenl@dnb.de](mailto:cenl@dnb.de) by **1. March 2023**.
