Storage building 'behind the scenes'

**BOSTON SPA - KB NATIONAL LIBRARY
OF THE NETHERLANDS -BIBLIOTHÈQUE
NATIONALE SUISSE**

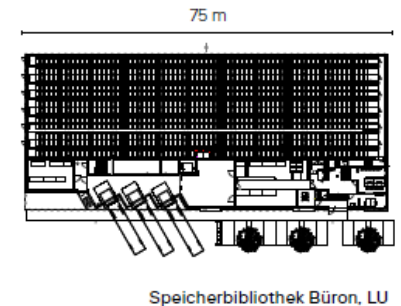

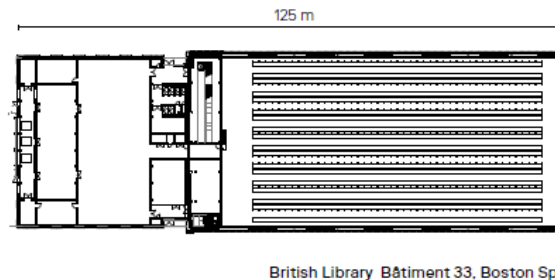

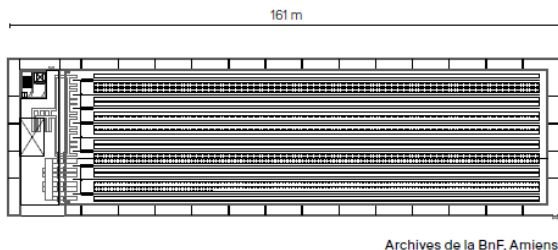

NEW GENERATION OF BUILDINGS COMING OUT OF THE GROUND

Here are the 3 common features of this new generation of buildings coming out of the ground Provide growth capacity.

High density, automated storage.

Low oxygen.

Passivhaus – maintains environment without energy (air tightness important).

- The Erland Kolding Nielsen grant and its 2023 winners, including BnF, which has been awarded a €5,000 grant for the Amiens project
- Expenses for the conférence 2 days :
Lunch ,coffee , translation Transcription : 4,111.97 €

BUDGET

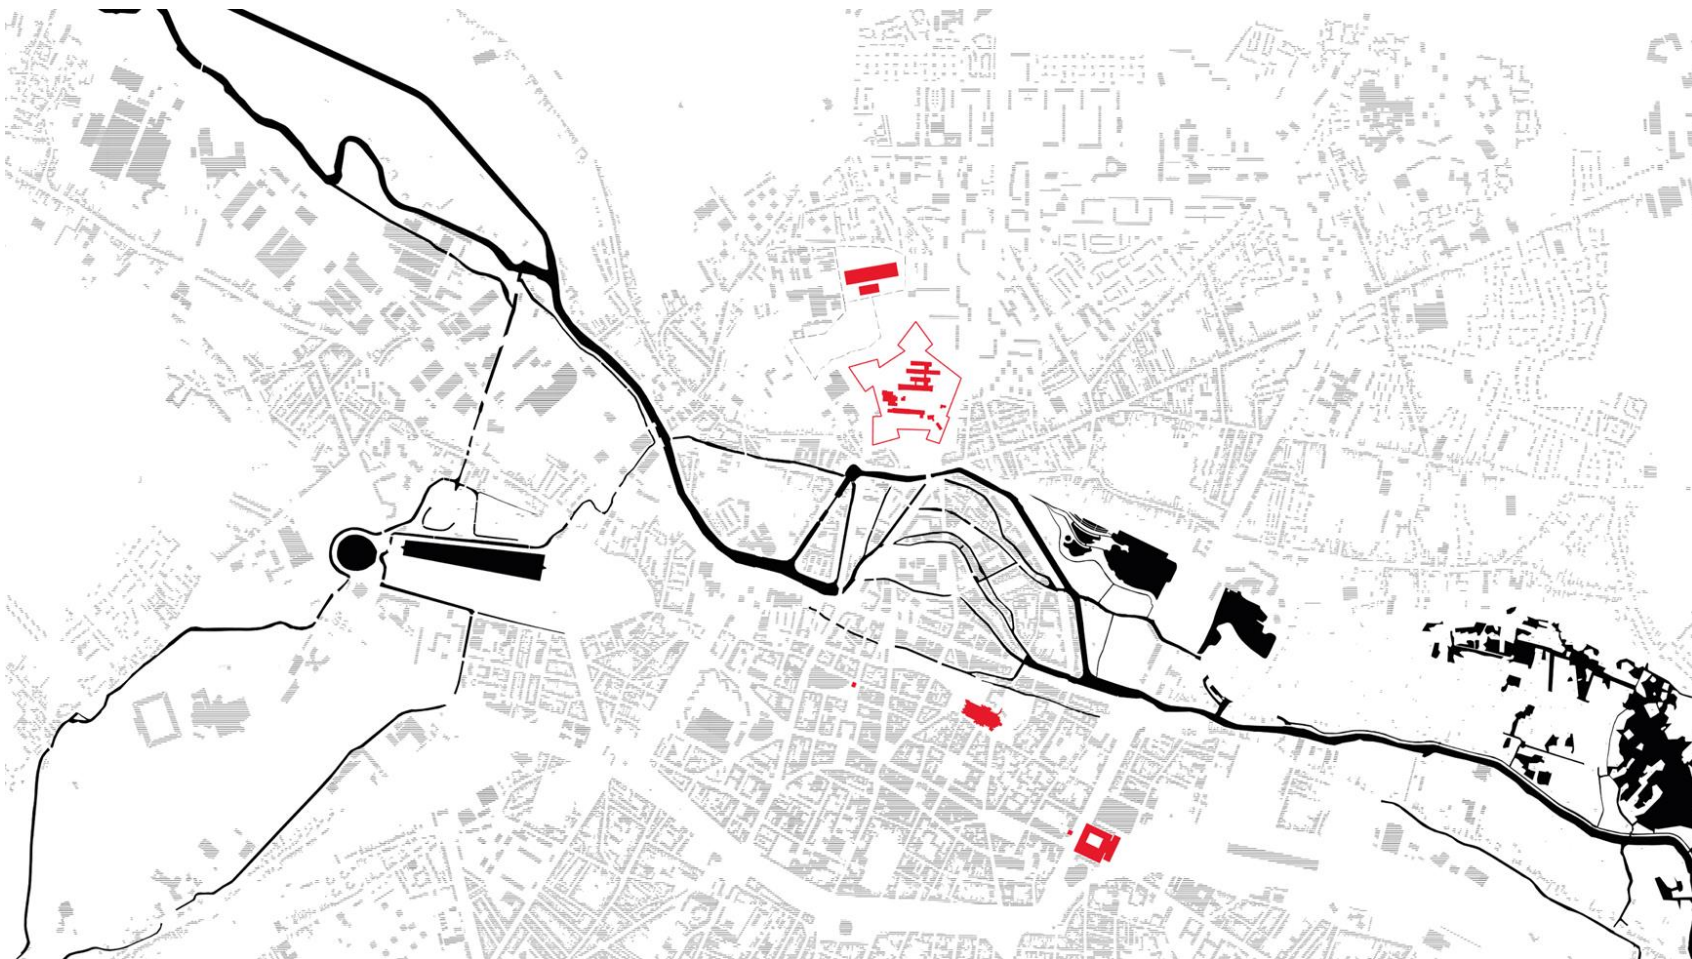

- Site visit for the BnF project management team in Büron in May 2024 for 25 people.
- British Library / BnF shared intralogistics expertise
- Feedback on KB's intra-logistics competitive dialogue procedure
- Webcam of the Boston SPA construction site
- Upcoming Kuopiu conference in September 2024
- Project to publish a book on the four European installations
